TEMPLE UNIVERSITY HOSPITAL SYSTEM
www.templehealth.org

Temple Health, one of Philadelphia's leading academic medical centers, is home to more than 1,000 physicians and scientists who share the mission of bringing innovative treatments to patients. Giving our patients access to some of the world's most advanced therapies — and helping them achieve outcomes once thought impossible — is the driving force for all our clinical care, research, and medical education.

Temple's nationally-renowned physicians now offer dozens of powerful new options for patients who, just a few years ago, were considered untreatable. Using sophisticated technologies and personalized treatments, Temple physicians are working to alter the course of serious disease. And in over a dozen research centers at Temple University School of Medicine and Fox Chase Cancer Center, our faculty are speeding the transformation of fundamental scientific discoveries into practical therapies that may one day dramatically improve human health.

Temple Health is committed to providing tomorrow's treatments, today.
